WENDY FRANCIS

Venus was the director of makeup for the 8 years that I produced the Lord Mayor's Carols in the City in Brisbane. She was an absolute gem! Venus worked with staff and volunteers alike and made everyone feel special. The quality of her work gave the performers confidence and she treated everyone with great care – whether it was Guy Sebastian, Marina Prior or the backup singers. She was proficient and was able to work quickly and also provide the touch-ups necessary through a long hot summer performance in Brisbane. The Brisbane riverstage is pretty cramped backstage, and Venus brought a wonderful fun and exciting atmosphere to the back room which opened directly into the green room. Venus always went the extra mile and I recommend her wholeheartedly.

RHONDA BURCHMORE

I have had the great pleasure of working with the extraordinarily talented Venus on several occasions .

The level of her skill , passion and artistry was sublime when she designed and applied the makeup for me when I was transformed into the hideous WITCH in the production of Sondheims "IN TO THE WOODS"

Within the same production I then had to change into a " full glamour makeup " - no easy feat as she had moments to do it .

Venus is an absolute delight to be around - I cannot speak more highly of her - I would strongly recommend her to anyone seeking an absolute professional brilliant , passionate artist .

7 News Brisbane

I had the pleasure of working with Venus for about 7 years, when she was a senior member of the Hair and Make-up Department at Network Ten in Brisbane.

As a presenter on the nightly news bulletin, Venus would often have to work under time pressure to make tight on-air deadlines, which she always accomplished with a minimum of fuss.

This was sometimes achieved while having to look after multiple presenters from other programs. She demonstrated a proven ability to manage her time and clients with a cool head and without sacrificing any quality.

But like most who have worked with Venus, I suspect it's her warm, relaxed and bubbly personality that makes it an absolute pleasure to work with.

Never short of conversation or a laugh, her high-quality hair and make-up skills are matched by her caring and professional approach to her craft. Venus is loyal, generous with her time and perfectly suited to working with anyone in any environment.

SIMON BURKE AO

I worked with Venus for much of 2016 where she was my personal makeup artist for Harvest Rain Theatre Company's production of HAIRSPRAY - THE BIG FAT ARENA SPECTACULAR. Venus was tasked with transforming me into the iconic musical theatre

character of Edna Turnblad every night.

Over the course of the show, Edna has several looks from frowsy housewife to vampy superstar and Venus, in close consultation with myself and the producers, originally designed each look and meticulously reproduced them to perfection for every performance.

Although the character was very over the top and the venues we were playing around Australia were huge, Venus managed to make me look very believable as a "housewife of indeterminate girth" as well as pretty funny! I can't speak highly enough of her professionalism, kindness, diligence and brilliant sense of humour.

When you are in the makeup chair for 2 hours a day while someone helps you transform into such a character as Edna, you get to know each other very well. And Venus is one of the best.

SARAH HARRIS
Studio Ten

Venus is an expert makeup artist who knows how to create a beautiful face and effortless hair. In my role as co-host of Network Ten morning chat show Studio Ten, I had the pleasure of working with this fabulous woman during a week of live outside broadcasts in Queensland. Day after day, Venus thrived under pressure, making me look and feel gorgeous despite the early morning starts and unforgiving outdoor light! Venus is a total gem: professional, efficient and a joy to work with. I'd recommend her to anyone for any occasion!
