

## Who We Are

Welcome to The Hide of It. I am a one-person small business that handmakes leather goods. Everything I make is done completely by hand and no machine use. I enjoy making many products with leather and love to recreate historical Viking related items also. I am open to making items on commission and would love to hear your ideas in creating a unique piece for you.

# The Hide of It

*Artisan Leather Goods*

### Committed to Quality

Being a one-person business, I am always aware of the need for quality. I make sure that this is achieved in all details of every item I make by only creating 1 piece at a time and always checking the quality as I progress.

---

*“So lovely to receive an item that is completely handmade and not done in a factory, beautiful work and highly recommend.”*

---

### 100% Satisfaction Guaranteed

I will be happy to discuss any questions about your commission or order at any time. I want my customers to feel like they are receiving a piece of handicraft that will last for a lifetime. All orders will be hand packaged in natural and organic materials to protect the leather.
