

**KERRIE PECK (KEZZ)**

### QUICK SELF BRIEF...

#### Digital Media and Design Enthusiast

I'm pursuing a Bachelor's degree in Digital Media and Film Production, with a passion for graphics, motion graphics, VFX, and VR. I bring hidden experience and talents, driven by a strong motivation to develop projects from the ground up, supported by a background in project management.

My time management skills and ability to thrive under pressure equip me to excel in fast-paced environments. I'm eager to combine these skills and shift towards on-screen media and film production.

I have also supported Australian film and alternative cinema alongside Andrew Pike, promoting films like Strictly Ballroom and Shine. My family-run Theatre Cafe has warmly welcomed both Australian and overseas actors.

With my digital media background, transitioning to film and on-screen VFX/VR is a natural step. I'm excited to explore interactive films and production roles, aspiring to become a script supervisor, production manager, and eventually, a director/producer.

## FILM AND MEDIA PRODUCTION
